Safety Rules Poster

You will be creating a small poster for a specific lab safety rule. Students will vote on the best poster for each category (glassware safety, fire safety, ect.) Winners will be laminated and posted around the classroom for the rest of the school year. This is a homework assignment.

Requirements:

- 1) The poster must be on an 8.5" x 11" piece of paper (computer paper or construction paper is fine).
- 2) The poster must have one safety rule written down along with a large picture of a safety symbol.
- 3) The poster must be neat with no cross outs or signs of excessive erasing.
- 4) Three or more colors must be used.
- 5) The poster may be done either free-hand or on the computer.

The safety poster will be collected and reviewed through a preliminary voting in each class. If your poster is not done on time, you will be ineligible to win.

Final voting will take place with the best posters from each class competing against each other!
